Introduction

The Amenesik Cloud Operator provides a web application based user interface tool facilitating the day to day configuration, management and maintenance of an Amenesik Cloud Engine by the platform operator. This tool is to be used by an authorised Amenesik Cloud Engine operator with the required level of both technical and commercial training.

This tool is integrated with the Amenesik Cloud Engine through the Database, the OCCI interface and through the Amenesik Remote Command Service.

For further information, relating to the Amenesik Cloud Operator, please refer to the corresponding document entitled: Amenesik Cloud Operator.
